ELSEVIER

Journal of Molecular Liquids 68 (1996) 283–284

journal of MOLECULAR LIQUIDS

Volume contents

(Abstracted / indexed in: Chem. Abstr., Chem. Citation Index. Curr. Contents Phys. Chem. Earth Sci.)

Vol. 68, No. 1

Ultrafast electron transfer in arene–Br atom charge transfer complexes
W. Jarzeba (Minneapolis, MN, USA) 1
Analytic solution of the mean spherical approximation for arbitrary mixture of hard ions and hard dipoles
I.A. Protsykevich (Lviv, Ukraine) 13
Determination of order parameters in realistic atom-based models of liquid crystal systems
M.R. Wilson (Lancaster, UK) 23
Computer simulation of vibrational dephasing in carbon disulfide
M.C.C. Ribeiro and P.S. Santos (São Paulo, Brazil) 33
A model for the interaction between hydrophilic and hydrophobic solutes. A caolorimetric study of the aqueous solutions containing alkylureas and urea at 298.15 K
G. Castronuovo, V. Elia and F. Velleca (Naples, Italy) 55
Dynamical solvent effect on the intramolecular proton transfer reaction of 4-methyl-2,6-diformylphenol in mixed solvents
S. Mitra, R. Das and S. Mukherjee (Calcutta, India) 65
Influence of inductive effect in some homologous organic liquids on the Kerr constant values
K. Rajagopal, T.A. Prasada Rao, A.C. Pulikotti and B. Viswanathan (Madras, India). 81
Temperature dependence of Kerr coefficient of some homologous liquids
K. Rajagopal and T.A. Prasada Rao (Madras, India) 95

Vol. 68, Nos. 2 / 3

Excess molar volumes, excess viscosities and refractive indices of a quaternary liquid mixture at 298.15 K
E. Caner, G.C. Pedrosa and M. Katz (S.M. de Tucuman, Argentina). 107
Dielectric relaxation of *O*-methyl *N*-phenyl maleimide, its binary and ternary mixtures with methyl methacryalate and styrene in carbon tetrachloride solutions
S.L. Abd-El-Messieh (Cairo, Egypt). 127
The study of the dielectric behaviour of vapours of water and organic liquids at microwave frequencies
U. Raveendranath (Kottayam, India) and K.T. Mathew (Cochin, India) 145
Temperature dependence of optical Kerr effect in water and optically active media
Z. Błaszczak and M. Farhoud, (Poznań, Poland) 157

Water: A dielectric reference
W.J. Ellison (Talence, France), K. Lamkaouchi (Meknès, Morrocco) and J.-M. Moreau (Talence, France) 171

Corrigendum 281
